American Dental Association Meeting Looms Large

San Francisco Going All Out to Entertain Visitors

SAN FRANCISCO will be the dental capital of the world next month when the 90th annual session of the American Dental Association is convened on Monday, October 17. An extensive, four-day program of scientific lectures, demonstrations, clinics, exhibits, and displays, plus a number of special entertainment features, have been arranged for convention visitors. The local committee, headed by Dr. Bernard C. Kingsbury of San Francisco, has completed arrangements for the 8,000 to 10,000 dentists and members of their families expected to attend. This meeting, first to be held in San Francisco since 1936, has been arranged in conjunction with California's "1949 Gold Rush Centennial." Ample housing accommodations have been assured all visitors at the city's numerous hotels.

SCIENTIFIC SESSIONS

All scientific sessions, exhibits, and the motion picture program will be presented in the San Francisco Civic Auditorium.

Business sessions of the House of Delegates and the general session of the Association will be held at the Fairmont Hotel.

The scientific program will get under way Monday morning, October 17, with the opening of the scientific and commer-

cial exhibits at the Civic Auditorium. This year's exhibits will be the largest in the history of the Association. Also opening Monday morning will be the motion picture program which will be operated continuously from 9 a.m. to 5 p.m. each day of the meeting.

Activities at the Fairmont will start Sunday, October 16, with the annual conference of State Society officers and a breakfast meeting of section officers. The House of Delegates will meet at the Gold Room of the Fairmont Hotel, Monday morning and Monday afternoon. At noon, Monday, there will be a testimonial dinner in honor of Dr. Roscoe H. Voland, past A.D.A. president and treasurer—also at the Fairmont.

CLINIC PROGRAM

The clinic program, featuring some 200 clinicians, will be presented at the Civic Auditorium, Tuesday morning and Thursday afternoon. Meetings of the eleven scientific sections will be held simultaneously at the Civic Auditorium, Tuesday afternoon, all day Wednesday, and Thursday morning. Approximately 75 essayists have been booked for the section meetings.

The general session of the meeting will be held at the Fairmont Hotel, Tuesday

(Continued on page 58)

EDITORIAL

A MORAL OBLIGATION

The new Secretary of Defense, Louis Johnson, has called attention to the critical shortage of physicians and dentists for the armed forces. During July, about one-third of the medical and dental officers started dropping out because they had completed their term of service. Without an increased inflow of such personnel, the shortage will assume dangerous proportions by the end of the year. The Army cannot continue to provide adequate medical and dental care for the almost 1,700,000 service people, who are the backbone of our nation's defense, unless sufficient replacements make up the losses.

The Chicago Medical Society has taken cognizance of the situation and has issued an appeal to young physicians to volunteer, especially those who had part of the expense of their medical school training furnished by the Government. Practically all teaching institutions have adopted the principle of not appointing men from internships to residency positions unless the candidates have had military service; likewise, these institutions will give precedence to men returning from military duty, just as was done after cessation of war.

It is not the intent of this editorial to shame young dentists into joining up. But there is a moral obligation, an obligation to your fellow men as well as an obligation to your profession. All those who were trained under wartime A.S.T.P. and V-12 programs under government auspices or who were deferred in order to complete their training at personal expense, and who saw no active service, should volunteer for a two-year tour of active duty.

Legislation guaranteeing sound administrative operation of the Army Dental Corps is in the committee stage. Everything points to its adoption by Congress. With this assurance, a tour of duty may well be a valuable aid to the young dentist. In any event, the dental profession must meet this emergency somehow and avoid the possibility of a draft or some equivalent action.

POSTGRADUATE STUDY

At no time in the history of the dental profession has the interest in post-graduate study been as great as at the present time. This interest on the part of dentists reflects growing recognition of the rapid changes which are occurring in dentistry and its related fields. These changes are taking place with such rapidity that all practitioners are being challenged by the rather serious problem of keeping up with them. In fact, it hardly can be done without additional study.

Members of the Chicago Dental Society have the opportunity right at their door to take courses designed to bring to them the latest developments in the various spheres of dental practice. All three Chicago schools present such courses from time to time and veterans should be cognizant of the fact that all the courses they may elect to follow can be taken under the G.I. Bill of Rights. This is an opportunity that may come only once in a lifetime. Don't neglect it!

NEEDED: A SENSE OF PROPORTION

While the more articulate proponents and opponents of the administration's "national health program" are wrangling before Congressional committees in Washington, the less articulate, but possibly as able, minds are busy on the home front. Socialized medicine has the backing of the more liberal element of the population which, in philosophy, out-deals the new deal. Rather than providing a floor of minimum security, it attempts to provide a tent under which all medical care will be provided.

These so-called liberals, these proponents of socialized medicine, maintain that because some 4,300,000 man-hours of work are lost each year through sickness and disability, there should be a law; a law which will enable an already financially embarrassed government to spend billions of the tax payers' money on a medical care program. They profess to believe that by so doing good health will be assured.

The opponents of socialized medicine champion the system of free enterprise. Under such a system we have achieved the highest health standards in the world, standards which have steadily improved and which will continue to improve if free of government interference.

The claim is made that the average American family cannot afford adequate medical and dental care. Yet it is reliably reported that at least 30 per cent of television sets are purchased by families of \$2,500 income or less, families which presumably cannot afford a \$300.00 medical fee to save a life. And when one reads about how much money is spent on liquor, cosmetics, tobacco, and candy, it is readily apparent that what the average family needs is not more and better medical and dental care but a better sense of proportion of what is important.

CHICAGO DENTAL SOCIETY

Regular Monthly Meeting—Tuesday, September 27

North Ballroom, Stevens Hotel

Business Meeting 8:00 p.m.—Scientific Session 8:30 p.m.

Speaker: Dr. Roy Wells Fonda, Detroit, Michigan

Subject: *Practice Building Through Controlled Credit*

This is the famous "Detroit Plan" that has been so successful; don't miss it!

Improvements in Retention for Crown and Bridge Prosthesis*

By Drs. E. Edward Kraus and Leland L. Kraus,
Marquette University Dental School, Milwaukee, Wis.

IN beginning this essay it might be well to review some of the history to date, and the progress made in this and other fields of dentistry.

J. B. Gariot of France brought out the first dental articulator in 1805, and in 1840 Daniel Evans of Philadelphia patented the first articulator with lateral and protrusive movements. By 1856, oxychloride of zinc cement was in common use. The following year, Thom of England patented an interchangeable facing which was not too unlike our present day Steele's facing. Beers patented a crown, "gold shell crown," in 1873, and five years later Matteson introduced the open-faced crown.

During the 90s, porcelain became known generally to the profession. Incidentally, silicate cement was developed in Germany about 1898. At the turn of the century, shell crowns and dowel type retainers inserted into root canals were the accepted method of supporting fixed prosthetic appliances.

Dr. John Carmichael of Milwaukee introduced the first veneer crown in 1906. It was the predecessor of our present three-quarter crown. It was of swaged gold plate, wire and solder construction. The following year Taggart announced his method of gold castings using the lost wax method. While credit goes to Taggart for the cast gold restoration, it is now generally conceded that the first work in this direction was done by Dr. William Schottler.

The casting process gave dentistry an impetus for improved technics in general.

Dr. E. T. Tinker of Minneapolis adapted the three-quarter crown, as designed by Dr. Carmichael, to the cast method.

* Presented at the Midwinter Meeting of the Chicago Dental Society, February, 1949.

Later, about 1911, when William Hunter of England blasted American dentistry for its oral sepsis, gold traps of sepsis built in, on and around diseased teeth, crown and bridge work became unpopular with the professions, both medical and dental, as well as with the public. About this time, Dr. H. A. Gillett of New York said, "I regard the day of fixed bridgework as having passed, and I believe the next decade will see the end of its use. It is time that the colleges of the country stopped teaching it because it has been most thoroughly discredited." It appeared generally that the day of fixed partial dentures was over.

The efforts of Orton and Knoche were instrumental in turning the tide and by 1920 a general improvement was noted. The x-ray and a better understanding of pathology had resulted in less devitalized teeth being utilized, and better retainer design as well as better pontic design.

This brief history has been presented in an effort to show the up-and-down-and-up path that crown and bridge has taken in the past eighty to ninety years. During the last twenty-five to thirty years, there has been a gradual and positive improvement in materials, such as gold alloys, porcelains, cements, and synthetic organic plastics.

PREPARATIONS FOR ANTERIOR TEETH

The various leaders in the crown and bridge field have brought out new technics and new preparation designs for abutment teeth from time to time.

Now, of the various types of preparations for anterior teeth, the pinledge or pit-veneer preparation holds the most interest for the authors at this time. In his textbook, *Crown and Bridge Prosthesis*, Dr. Stanley Tylman refers to this prepa-

ration as the Kabnick type preparation. The pinledge preparation provides the ultimate in esthetics. Little or no gold is shown, very little of the tooth is removed, and yet the retention is superior to that of the conventional three-quarter crown. This preparation involves the lingual and at least one of the two proximal surfaces and sometimes the incisal surface.

The retainer might well be divided into three basic parts: First, the veneer portion; second, the ledge or support portion; and third, the pin or retention portion.

The operator provides for the veneer portion by removing from the lingual surface sufficient enamel and dentine necessary to provide the required veneer bulk or thickness. This is done with small diamond wheel instruments about six to eight millimeters in diameter. A diamond disc may be used to remove the mesial or distal area in a manner to provide for connection to the approximating pontics.

The preparation is not carried below the free margin of gum on the lingual but rather is held just short of the gingival tissue. A definite finish line is created at the peripheral extent of the preparation. It is to be noted that the incisal edge has not as yet been prepared.

If little or no incisal occlusion exists, the preparation can be kept short of that area, or provision can be made to have the gold extend to the incisal tip but not cover it. The gold-tooth margin or cavo-surface angle would then be on the incisal surface. If an end to end bite or some similar situation is at hand, the usual incisal bevel is in order. This about completes the veneer part of the preparation.

POSITIONING PINS

Although the pins are provided for last, they are now to be positioned. Following is the general rule for their location: Pins are to be as far as possible from the pulp and still be completely surrounded by dentine. Two pin holes or canals are placed, one near the incisal and one on

the linguogingival. The pin holes are prepared with a 701 bur and are generally about 2 millimeters in depth. The use of the tapered cross-cut bur and the all-wax tapered pin may be considered as an improvement over some of the original technics.

Following placement of the pin canals, the preparation is now ready for the ledges, or the support proper, because without sufficient ledge area the retainer may fail owing to shearing of the pins under stress.

The authors believe that it is unnecessary to cut a ledge or channel completely across the lingual from mesial to distal in the incisal region, but instead a platform or counter-sink should be placed about each hole. This is done with a 702 or 560 bur. It is expedient to place the ledges after the pin holes are sunk. In this way the ledges are then more readily positioned with regard to the pits than if the reverse were true.

After the usual refinements, the preparation is now completed. It is understood that all through this procedure care has been taken to assure parallelism of the pin holes.

WAX PATTERN

The wax pattern is now in order, the preparation is freed of excess saliva but is not rendered dry. Kerr's dark wax, Peck's purple, or Taggart's blue wax is treated as follows: The wax is thrust into the flame and immediately withdrawn, this is repeated until the wax is made reasonably plastic. Avoid overheating wax. The wax, when plastic, is shaped into a section about 5 millimeters thick and large enough to cover the lingual of the preparation. Just prior to application, the wax is heated again to a slightly shiny surface and is then placed onto the preparation with finger pressure. A matrix may be used but it is not advisable. It is now removed and, without chilling, is trimmed with a warmed sharp lanut to near the periphery of the pattern proper. The wax is again placed on the tooth and the peripheral excess is re-

moved with a warmed blunt instrument. The lingual bulk it not lessened to any great degree at this stage.

The pattern is now ready for the placement of the wax pins. The instrument for this purpose may be made from a discarded root canal plugger or any similar instrument, such as an explorer.

The following are the requirements for the waxing instruments: It should have a contra angle effect for ease in manipulation and the working end shall be so shaped that it will form a plugger that will exactly fit the pin holes of the preparation. The plugger will have a slight taper, such as that of a 701 bur; also, it should have an end similar to the aforementioned tapered bur.

The instrument which is now at hand is heated sufficiently over the flame to melt wax. While so heated, it is inserted through the wax into a pin hole thereby replacing wax and, while it is still warm enough to melt wax, it is removed causing the hole to fill with wax. This plunging process is repeated two to three times, care being taken to have the instrument warm enough to melt the wax at the time of removal. Failure to observe this point will result in a void in the pin portion of the pattern.

After each of the pins are formed, the pattern is given the necessary anatomical form. A sprue of 16 to 18 gauge wire is attached near the incisal, parallel to the pins, and the pattern is removed. It is well to inspect the pattern for faults and especially to see that the wax pins show an impression for the deepest part of each canal. This is important in that proper cementation depends upon the canals being filled exactly by the pins. The authors use straight Cristobalite investment, with wax eliminated at 800 degrees Fahrenheit.

Type B golds are used for this type of retainer. It is well to allow the sprue, or at least part of it, to remain as the casting is tried on the preparation, as generally the retention is so great as to make the initial removal difficult. After several insertions, the casting is generally more readily removed.

If a remnant of the sprue is allowed

to remain at the time of impression taking, a more accurate transfer is possible as the pinledge casting can be centered in the impression, using this remnant as a key or guide.

The tapered pin greatly enhances retention wherever it is used. All dental operators are aware of the increased retention when a linguogingival pin is added to the conventional three-quarter crown.

POSTERIOR RETAINERS

On occasion it is necessary or advisable to use a mesio-occlusal or disto-occlusal inlay as a bridge retainer. Many times the occlusal dovetail will not suffice as a retention form. The placement of two pins inside the marginal ridge, one pin to the buccal and the other to the lingual, will give this type of retainer displacement resistance equal to, if not better than, the usual mesio-occluso-distal inlay retainer.

Inlays that are used to increase vertical dimension in so-called bite raising cases, are best anchored with pins that are strategically placed. Two or three, and sometimes as many as four, pins will secure an inlay better than the ordinary mesial and distal extensions. The pins may be added to improve retention of conventional, but inadequately retained, M.O.D. inlays. Pin retention is useful on occasion in attaching retainers to posterior abutments that are inclined beyond the safe limits of 22 degrees off vertical. The main requisites in using pin retention on posterior teeth are: parallelism, location in sound dentine and adequate distance from the dental pulp. The pin size may be increased as needed. Tapered burs size 702 lend themselves admirably when tooth size permits.

If pin-retained attachments are to be placed on lower anterior teeth, it is advisable to use 700 burs, or even burs as small as 699. The number 699 is not made by all manufacturers.

The waxing technic remains the same for all size pins. All that is required is that the proper size plugger is used.

(Continued on page 59)

LETTER TO THE EDITOR

TO THE EDITOR:

The question of national reciprocity, I believe, will never be solved for the simple reason that the bigwigs of the dental society do not want it and cannot give it up because of the many men holding jobs due to the fragmentation of the society. No matter what group one takes, whether it is government, club or party, the leaders do not want to lose their jobs. Sometimes it is prestige, sometimes the desire to be in the limelight and selling the fact to patients. To be chairman, secretary, treasurer or some kind of stooge in the society makes one a better man, or anyway it can be used as a sales talk very well.

Complete reciprocity between states can well be put on an educational basis. If a student graduates from a grade "A" school under a national, unified school system and passes a national board, that should qualify him to practice anywhere in the United States.

Anyone choosing to study dentistry practically limits his scope to one state. Is there any sense to it? One of the poor excuses is that it is done for the health of the public. Thousands of dentists prac-

ticed their profession in different states during the war and I've yet to see where anyone didn't get the right attention because the dentist wasn't practicing in his own state. As a matter of fact, in the town of Vallejo, California, navy physicians even made calls on patients and performed operations in the city hospital. On the other hand, the "lowly" dentist did not have the right to look at a patient during his free time.

Even at a time when patients couldn't get into a dental office for months at a time, and then only when they had special recommendations from an old patient, there were empty chairs in dental offices. The "powers that be" gave all sorts of excuses—that dentists, when they get old and decrepit, will run to other states, or the charlatans will run to other states to advertise. Of course, that's a lot of "charlatan talk." If a man decides to move, why shouldn't he have the right? He doesn't limit his citizenship to one state, certainly. In any case, he is lucky that there are no city and county boards for that would mean so many more "prestige" offices for those who fight so much for them.—*B. Z. Kite, D.D.S., 2800 Milwaukee Ave., Chicago.*

IT'S NOT TOO LATE!

Plan to attend
the

**90th Annual Meeting of the American Dental Association
San Francisco—October 17-20, 1949**

For Reservations by Plane or Train
Telephone STate 2-7925

ANNOUNCEMENT OF SPECIAL FLIGHTS TO AMERICAN DENTAL ASSOCIATION CONVENTION

The Chicago Dental Society, for the first time in its history, is officially sponsoring a special convention flight to San Francisco and return, for its regular and associate members who plan to attend the American Dental Association convention, October 17-20, 1949.

Your society is cognizant of the fact that members are using air transportation more and more as their regular mode of travel, due principally to the time they save and the personal comfort they realize. Consequently, as an added service, your society is bringing the facility of air transportation to you—having arranged with United Air Lines to provide a 52 passenger, 5 mile a minute, Mainliner 300 (DC6) for special flights scheduled as follows:

Lv. Chicago	10:45 AM (CST)	Sunday, October 16, 1949
Ar. San Francisco	4:35 PM (PST)	Sunday, October 16, 1949
Lv. San Francisco	10:00 AM (PST)	Sunday, October 23, 1949
Ar. Chicago	6:50 PM (CST)	Sunday, October 23, 1949

The round trip cost for these special flights is \$248.57 (the regular air fare) and includes 15% Federal transportation tax, famous, hot, full course Mainliner meals en route, and of course there is no tipping for this or any attendant service en route. Those who wish to use only one way special flights, going or returning, may do so. The one way charge (also the regular one way fare) is \$130.81, and includes items as outlined above.

Daylight flights were selected to provide you the opportunity to view the panoramic beauty of the western wonderlands en route. The return flight was set up for Sunday to enable everyone to have more time to see San Francisco and its many interesting sights without taking additional time from your office. It also would enable you to spend two nights and a day in Los Angeles, Portland or Seattle, at a slight additional cost, should you so desire, and still return to San Francisco in time to connect with the special return flight to Chicago.

To be assured of your reservations on these special flights, your society urges you to complete the form printed below and mail it, with your check payable to the Chicago Dental Society, to the society office *by September 6, 1949*. Preference will be given on the basis of the order in which requests and checks are received. Your prompt response will assist us in working out details that will add to your pleasure en route.

Dr. Edwin W. Baumann, Secretary
Chicago Dental Society
30 N. Michigan Ave.
Chicago 2, Illinois

Please include me on the Chicago Dental Society—A.D.A. convention special flight.

Round Trip () Going () Returning ()

My check to the Chicago Dental Society in the amount of \$..... is enclosed. I am staying at the while in San Francisco.

NEWS AND ANNOUNCEMENTS

MONTHLY MEETING SUGGESTIONS

Very few suggestions have been received by the Monthly Meeting Program Committee in response to a request printed in the July 15 issue of the *FORT-NIGHTLY REVIEW*. The Committee is anxious to secure programs that will be of the greatest good to the greatest number. Just telephone STate 2-7925.

CHANGE OF ADDRESS

Few members of the Chicago Dental Society are aware of the provision of the Dental Practice Act which requires a dentist to notify the Department of Registration and Education of any change of address "within ninety days thereof." Failure to do so "shall work a forfeiture of such license, and no license, when once forfeited, shall be restored, except upon payment to the said department of the sum of fifteen dollars (\$15.00) for such failure." (Sections 6 and 8, *Illinois Dental Practice Act*.)

NORTHWESTERN'S DEAN HONORED

Dr. Charles W. Freeman, dean of Northwestern University Dental School, was taken into membership in the Royal College of Surgeons of England as a fellow in dental surgery on July 15. He was presented by Dr. Robert Bradlaw, dean of Durham University's dental school.

On August 2, Dean Freeman gave an address in Paris, France, before the American Dental Society of Europe, of which he is an honorary member. His further itinerary includes Switzerland,

the Netherlands, Denmark, Norway, and Sweden.

NEW LOCATION FOR ENGLEWOOD BRANCH MEETINGS

Englewood announces their first regular monthly meeting at a new location—Nielsen's, 79th and Western—Tuesday, September 13. The speaker will be Dr. Otto W. Silberhorn; his topic: *Crown and Bridge*.

XI PSI PHI FRATERNITY GOLF OUTING AND DINNER

The Xi Psi Phi Dental Fraternity golf outing and dinner will be held September 28 at the Itasca Country Club. Tickets \$7.00—for reservations telephone J. C. Ullis, Chairman, SPaulding 2-8851; or G. R. Olfson, Secretary, LOng Beach 1-1932.

ESSAY DIVISION MEETS

At a recent meeting of the Essay Division of the Midwinter Meeting Program Committee, the following members of the Essay Division were selected as chairmen of the sections indicated: Full and Partial Dentures—Daniel D. Kline; Orthodontia and Children's Dentistry—E. H. Borgerding; Operative Dentistry, including Crown and Bridge—W. A. Buchmann; Research—Kenneth C. Washburn; Practice Management—Thomas R. Wright; Periodontia—Michael DeRose; Oral Surgery—O. H. Stuteville.

The first task of these chairmen will

be to prepare a list of ten to twelve essayists and select the subject which each one will be asked to discuss. It is expected that the complete program will be in readiness so that invitations may be sent to essayists not later than October 1.

A.D.A. JOURNAL SUPPLEMENT AVAILABLE

By special arrangement, a limited number of copies of the American Dental Association *Journal* supplement, "Compulsory Health Insurance Is Not The Answer," are now being made available to state and component dental societies without charge.

The 96-page booklet, an excellent compilation of authoritative information on the subject of compulsory health insurance, has been distributed to thousands of schools, libraries, teachers, civic leaders, medical society officers and others, but there are still many key individuals that should be reached.

SNEAK THIEF REPORTED

Several dental offices in the Loop area have reported that a man has been stealing purses from reception rooms. He enters on the pretext of having found some stamps just outside the door, gets the lay of the land, and then returns later. He is dressed like an ordinary delivery man. He was last reported in the Pittsfield Building.

NEW ORLEANS DENTAL CONFERENCE

The New Orleans Dental Conference of the New Orleans Dental Association will stage its second annual four day full scientific meeting, November 13 through November 16, 1949, at the Roosevelt Hotel, New Orleans, Louisiana.

Six of the country's leading clinicians

will address the general assembly and in addition will conduct limited attendance clinics.

Running concurrently with the limited attendance clinics will be table clinics and motion picture programs.

All inquiries are to be addressed to the New Orleans Dental Conference, 8117 Oak Street, New Orleans 18, Louisiana.

SPECIAL DRAFT HELD UNLIKELY

A draft of physicians and dentists now seems unlikely, according to the *Washington Report on the Medical Sciences*. Other measures are being instituted which may raise recruitment to the desired level. These include: (1) abolishing red tape and training duty inequities in the reserves; (2) cutting the tour of sea duty to six months, and (3) improving the flow of medical and dental literature to isolated duty stations.

A.A.A.S. TO MEET IN NEW YORK

The American Association for the Advancement of Science will meet in the Pennsylvania zone hotels of New York City, December 26-31, 1949. Three sessions of papers on research in dentistry are scheduled for Friday morning, afternoon, and evening, December 30, at the Hotel McAlpin.

Dr. Isaac Schour, of the University of Illinois College of Dentistry, is secretary for the dental section and Dr. Gerrit Bevelander, of New York University School of Dentistry, is chairman of the Local Committee.

Registration is \$2.00 for members of the A.A.A.S. and \$3.00 for non-members. Those attending may have the advantage of the membership rate by joining the Association now or at the meetings. A cordial invitation is issued to members of the Chicago Dental Society who are interested in either scientific research or

(Continued on page 61)

Medical Care*

THE medical facilities of a state or nation represent a vitally important investment in the well-being of its citizens. According to 1947 census estimates, Illinois is the fourth ranking state in population, and it maintains a comparable position in medical facilities. In 1948 there were 321 hospitals in Illinois. General hospitals numbered 215, and of the others, 31 were for mental cases, 30 for tuberculosis, 13 for convalescents, 6 for maternity cases, and 26 miscellaneous. Only one state with a smaller population, Texas, had more hospitals than Illinois last year; and only California, New York and Pennsylvania had a greater number of hospital patients. Of the 1,023,000 admissions to Illinois hospitals registered by the American Medical Association in 1948, 52,000 were Federal hospital patients, and 122,000 went into county or state hospitals. There were 807,000 patients in nongovernmental hospitals, a number exceeded only in New York and Pennsylvania.

MEDICAL PERSONNEL

The United States has more doctors in proportion to population than any other nation in the world, and the number is increasing faster than the total population. Of the 198,000 physicians in the United States in 1948, six per cent, or over 13,000 were in Illinois. The State maintains its fourth place position in numbers of both physicians and dentists.

At present the medical profession is handicapped by a shortage of personnel in some fields, the need for dentists being especially acute. There were only slightly more than 83,000 dentists in the United States last year, one for every 1,717 people. The Illinois dental situation is somewhat better, with 6,200 dentists in the State, one for every 1,341 people. There

are resident dentists in all but one of the Illinois communities with populations of over 5,000 and in a majority of communities having from 1,000 to 2,500 people. It is estimated, however, that almost 2 million Illinois residents live in rural areas and in the 685 communities without dentists.

The shortage of nurses, so crucial during the war, has improved, and there was an appreciable increase last year in nursing personnel in the nation's hospitals.

EDUCATION AND TRAINING

It is estimated that more than 5,000 students will receive medical degrees from the nation's 71 medical schools this year. The five accredited medical schools in Illinois—the Chicago Medical School, the Stritch School of Medicine at Loyola, Northwestern University Medical School, the University of Chicago School of Medicine, and the University of Illinois College of Medicine—graduated 408 students during the 1947-1948 term. The University of Illinois, the largest medical school enrollment in the nation, admitted 634 medical students during that period.

The number of physicians, dentists, and nurses in an area no longer adequately measures the extent of medical service. Of increasing importance are such associated personnel as medical technicians, research workers, and pharmacists. Modern hospitals have undertaken the task of training these auxiliary workers, as well as interns, resident physicians, and student nurses. Illinois is second only to New York in the number of internships offered by hospitals in 1948, and has more hospitals approved for the training of x-ray technicians than any other state. The University of Illinois College of Medicine, which is affiliated with the Presbyterian hospital of Chicago, is one of only 24 schools in the

NEWS OF THE BRANCHES

NORTH SUBURBAN

To date three or four men have sent in post cards with some news; I wish you could all see a couple of the beautiful scenes on them. I couldn't be far wrong in guessing that almost everyone is getting a glimpse of some outdoor scene which he wishes could be transplanted to his own backyard, or *vice versa*. Just to help back up this point—Frank Woods is spending a month vacationing on the West coast. . . . Axel Pedersen was again a vacationer in Mercer, Wisconsin. . . . Leonard Grimson is spending some time on an island (no telephone) in Lake Kabetogama, in Minnesota. . . . Hal Chason has been in Steamboat Springs, Colorado. . . . Fred Barich also likes Colorado (near home grounds of Montana). . . . Art Leaf was the exception in the viewing of beautiful scenery this summer. He spent the first week of his vacation in bed, getting the kinks out of his back, and the second week learning to walk straight again. We suggest that he take another vacation soon and do it right. . . . Ray Thorsen has moved his office from Hubbard Woods and is associated with his uncle, Art Thorsen, in Winnetka. . . . Carl Brasmer, Gerald Clark, Grant MacLean, and Carl Schramm, the Evanston kids' clinic group, had some relaxation in a picnic outing. . . . Sayre Hexton (a headliner) won the Class "D" cup for Skycrest golf championship. Very good, I'd say! . . . Al (Smiley) Parcell will now be a partnership, since the marriage date was August 20. . . . James W. Ford, Sr., was vacationing at Coons Lodge, near Woodruff, Wisconsin. His return trip will include Detroit, Michigan, to visit his son, James, Jr., who is an M.D. in residency there. . . . Edgar Coolidge is spending his time now in the research field and

the farm field (farm near Elgin). . . . Earl E. Graham is retiring from dental practice and moving to Colorado Springs, Colorado. He is a former president of North Suburban Branch and secretary of the American Dental Association Relief Organization for years. Evart A. Archer is taking over his practice. . . . As a final suggestion—take it a little easier and maybe you can live to be 75 years of age and do as many worthwhile things as Herbert Hoover has done.—*John C. McGuire, Jr., Branch Correspondent.*

WEST SIDE

Vacation news is thinning out and it seems that everything is very quiet on the west side. But the committees are busy planning a big year for our coming meetings and there will soon be a release of the fall program in this column. Marvin Chapin is chairman of the Program Committee and he says that he will appreciate any suggestions you may have. Also, a new innovation is going to be presented at the fall meetings, so be sure to reserve your dinner tickets from Hal Gillogly. . . . Irvin Miller has had a recent operation and is recuperating in Minnesota. Get well soon, Irvin. . . . George A. Falotica has moved his offices from Roosevelt and Ashland to Madison and Waller in the New Austin Medical Center building. Good luck to you, George, in your new office. . . . Jack Ehrlich has lost ten pounds since his air-conditioner went on the bum. He is really sweating it out. . . . Mort Herman has just returned from a vacation in Florida. . . . Harold Harris has been spending the summer at Lake Geneva, Wisconsin. . . . George Frost is leaving for Denver, Colorado, where he and Mrs. Frost hope to relax for about a

month. . . . Yours truly is taking time off to rest at Mackinac Island. . . . I am deeply grateful to Irv Fishman, who has graciously consented to write the next issue. Please help him by phoning in your news. His phone is SAcramento 2-4618. . . . See you all in the fall.—*Irwin B. Robinson, Branch Correspondent.*

NORTHWEST SIDE

An S. O. S. call was relayed to your correspondent in connection with the revolutionary Telephone Seminar Course sponsored by the University of Illinois. More Northwest branch members are needed to attend. The course is designed for armchair listening to top-notch practitioners in various branches of dental practice, experts from all over the country are participating. The cost is nominal, due to the method used and wide participation by listeners. Facilities for those who have already subscribed will be installed in the LaSalle Hotel for monthly Monday evening sessions. The opportunity to hear the foremost dental experts "in person," via the telephone hookup, is just too good to be missed. So, let's go, Northwestsiders, and fill up all the chairs; there are many available, and how else could you relax and get so much benefit at the same time? . . . They said it couldn't be done, but the branch's own Henry Boris cracked the California Board exam on the first try. Nice going! Now we have to determine whether it was his army training, just plain brains, or his good looks that were responsible. . . . Oops! Sorry! Just like every big-time newspaper, we sometimes make mistakes. Acting on information deemed reliable, we reported Viggo Sorensen as recovering from surgery. Well, Viggo feels fine but had no surgery. Anyhow, he feels fine! . . . Joe Ulis is also quite indignant as we had him traipsing around the country in a Hudson. "Tain't so," says Joe, "it's a Pontiac!" . . . After digging up all the golf courses from here to Mackinac and back, Gus Tilley is back in town, still hacking away trying to keep on the fair-

ways. All golf course groundkeepers had better send for reinforcements! . . . Both Bill Lowy and his office were recently reconditioned, he at the hospital, of course, for three weeks. Both "patients" are doing fine. . . . Condolences to Casimir Dumanowski on the death of his father-in-law. . . . The branch also mourns the passing of a member, A. A. Gordon, who was also a member of American Legion Post No. 86 and a member of "40 and 8," V.F.W. . . . Quiz program! Where did Norbert R. Skupien enjoy his vacation this summer? . . . July 29 was "get away" day for Bob Placek, off on a three-week trip way up north where the fish really bite. . . . W. C. and Mrs. Schuessler are thrilled over the adoption of little Frederick, who has already travelled to Canada, where his aunts and uncles are spoiling him, and all are having oodles of fun trying out all the modern methods of raising kids. . . . Good luck! . . . Part of our branch's bachelor brigade, Henry Gewartowski and Frank Brzezinski are roaming around the country taking in the sights and everything else not nailed down. They will see the Badlands, Yellowstone, Lake Louise—and girls! . . . B. E. Stark also made the trip thru Banff and Lake Louise, played golf, and used his camera. Since he is a member of the North Shore Camera Club, he should have some good photos for the boys. . . . Don Mammen and his family are doing a little touring thru the Michigan Copper Country, also known as the "Cherry Country," a fine spot to be at this time of the year. . . . Otto M. Johnson is confined to Oak Park Hospital. Best wishes for a speedy recovery. . . . Congratulations to George Freedman on his first solo flight. Did he flee from his practice to a flying vacation?—*Joe Lebow, Branch Correspondent.*

ENGLEWOOD

With the mercury sizzling in the 90s, news is a bit scarce these days. Most of the boys are away or just getting back. . . . V. E. Siedlinski and Col. Leon Stern

have just returned from a rugged two weeks with the National Guard. . . . The Ray Bartz's have been spending their week-ends at Tabor Farm. . . . Vince Maurovich must be working overtime these days. That shiny new Dynaflo Buick he has been sporting around surely shows that it pays! . . . Lots of luck to Walter Valentinas who has recently taken over John Jankus' former office. Has anyone seen John's impressive looking new office and home on E. 83rd St.? . . . If any news items turn up, please send them to W. Byrne, 7856 S. Ashland Ave., TRI-angle 4-6146.—*Edward C. Thomas, Assistant Branch Correspondent.*

SOUTH SUBURBAN

In the good old summertime when the sun is really going to town, and a dentist's thoughts turn to golf, fishing, or other pleasant diversions, those of us in our offices seem to have just about everything on our minds but dentistry. . . . George Stevenson got the bug to go somewhere and took off for Halifax, Nova Scotia, in that plane of his and stayed long enough to send Neil Kingston a post card. . . . Others, like Sidney Bayer, go out and buy a new Chevie and take off for a place like Lake Nippersink, Ontario, to see what size their fish run. By the way, the lake is only six miles from Callander, the home of the Dionne quint. . . . George Madory, now that he is recovered from his brush with that new-fangled fryer, is off to Hilltop, Michigan. . . . Howard Phillips has returned from spending a very enjoyable visit with his mother-in-law at Ephraim, Wisconsin. . . . Taylor Bell tore himself away from that snazzy new office to go up to Fortune Lake, Michigan, for a vacation and rest. It's going to be tough on us this fall, listening to him sound off about those that got away. It seems that when Bell goes fishing, there is a certain breed of fish of wondrous proportions and extraordinary cunning that seem to evade being caught. . . . The first meeting of the dental staff of the Ingalls Memorial Hos-

pital in Harvey was a luncheon meeting attended by fourteen members, who elected the following as officers: Neil Kingston (he really gets around), president of staff; George Madory, secretary; George Stevenson, member of the Executive Committee; and Henry Cubbon, member of special committees. . . . Here in the Heights, there is considerable rivalry going on among Peter Iagmin, Silvio Tiberi, and Ezio Grossi. Someday we ought to hold a special golf meet with no holds barred to let them settle the matter once and for all. . . . Leonard Holt, our perennial treasurer, believes in doing things in a big way. He took his family on a three-week trip to Hawaii and all points west. When he does anything, he really does it up right. . . . We have a report that Harry Lees was off on a junket, but just where and for how long, we do not know. . . . In closing, to those who like to see their names in print, how about sending me a card from wherever you happen to be and letting me know all the particulars.—*H. C. Gornstein, Branch Correspondent.*

WEST SUBURBAN

The Program Committee for the West Suburban Branch has a splendid program arranged for the entire year. While the program is being announced at this time, the membership will receive a detailed announcement well in advance of each meeting. . . . Tuesday, October 4, 1949—Dr. Gustav William Rapp, Loyola University School of Dentistry, Chicago College of Dental Surgery. Topic: *Antibiotics*. . . . Tuesday, November 1, 1949—Dr. Maynard K. Hine, Dean of Indiana University School of Dentistry. Topic: *What About Prevention of Periodontal Disease*. . . . Tuesday, December 6, 1949—Dr. Maury Massler, University of Illinois College of Dentistry. Topic: *Oral Infections—Differential Diagnosis and Newer Methods of Treatment*. . . . Tuesday, March 7, 1950—Dr. John R. Thompson, Northwestern University Dental School. Topic: *Free Way Space*.

. . . Tuesday, April 4, 1950, will be an evening devoted to clinics. A few members have already accepted an invitation to present a clinic. If there are any others who can present a clinic that would be of interest, please contact the program chairman, Howard J. Buchner. . . . About the only bit of news from the ranks is that Bruce Bush's son has polio. Hope it is not serious.—*Robert F. Sirimarco, Assistant Branch Correspondent.*

NORTH SIDE

Again the stork beat the column. Guess I will have to improve my liaison to Storkville, or ask the mothers for a little cooperation. That effervescent figure around the Uptown Bank Building is Bill Osmanski; the reason—an eight and one-half pound man child. . . . An informant gave me the news of the Stan Goldberg addition, which makes one-sixth of a dozen for them, but at this writing the gender is not known. . . . After spending six days at Jacksonville, Florida, taking a very difficult state board examination, M. Edgar Walker came out victorious; so another Yankee may infiltrate the ranks of the Rebels before long. . . . The mention of ranks brings to mind military men; and here we have one, Marv Ericson, who has distinguished himself with the American Legion. He will be installed as Commander of the Ravenswood Post, September 10. Let's turn out to congratulate him. . . . The fortunate ones are still coming back from and going to various vacation spots. Meyer Poliak returned recently from a visit out West where he saw three brothers—two N.U. dentists, one in Palm Springs and the other in Seattle, Washington, and the third is City Psychiatrist in San Francisco. It was a quickie vacation, only two weeks. . . . "Corkie" Corcoran didn't feel too buoyant after the hot weather, so sought some cool retreats around Lake Michigan. . . . Bill Schoen is well acquainted with the cool zephyrs of Lake Michigan, for he has just returned from his cabin at Bailey's Harbor, where he

did some boating and fishing. . . . Those fellows can now "sweat out" the remainder of the summer with pleasant memories, but Clyde West is still away. He is spending his time between Madison, Wisconsin, and his farm at Watseka. . . . Manley Elliott (our Mayor's dentist) is trying his luck with the fish in Canada. Bring some home, Manley. . . . Ted Dubrow doesn't want any fish except muskies to bother him; he's trying Land-o-Lakes. . . . Herb Krummel and Roy Schulz are away, and "Bret" Schulz is away for two months. . . . A long vacation must be "nice work" if one can get it and Carl Gieler did—five weeks, first to Hawaii, and then to San Francisco for the American Dental Association Meeting. . . . R. L. Art and Meyer Poliak are making life at home more endurable by the use of air-conditioning. . . . At home is where Ted Olson wants to be, but he had a hard time getting one. First he started building in Sauganash, but he found the brick walls buckling, so he finally bought a place in Edgebrook. Hope you'll be very happy, Ted. . . . The Uptown Dental Forum, which meets Friday noon at Rupneck's, has had two distinguished guests lately. Dr. Robert Koff, who is psychoanalyst of the Institute of Juvenile Research at the University of Illinois, spoke on "Classification of Patient Types" and "Child Fears in Dental Practice." The other, Dr. Lee Katzin, of Detroit, Michigan, who is president-elect of the Alpha Omega Fraternity. . . . Incidentally Maurie Altus is chairman of the Convention Savings Club of the Alpha Omega, which is having its convention at the Drake Hotel during New Year's week. . . . That's it for now, but let me know if you are going to the American Dental Association Meeting. . . . Stop the Press! Just got a news flash about some "monkey business" I thought you would like to know about. Russ Boothe had to rush over to Lincoln Park Zoo and extract a central incisor from a gorilla. He did it with a "local," but not singlehanded. —*Robert C. Pond, Branch Correspondent.*

CHICAGO DENTAL SOCIETY

Alphabetical Roster of Membership

1949-1950

SYMBOLS

- | | | | |

**AMERICAN DENTAL
ASSOCIATION MEETING**

(Continued from page 5)

evening. Sessions of the House of Delegates will be held Wednesday and Thursday afternoons. New officers and trustees will be elected at the Thursday afternoon meeting.

Running simultaneously all through the four-day meeting will be the special entertainment arranged by the local committee. Top entertainment feature will be the International Night banquet and floor show at the Palace Hotel, Wednesday evening, October 19, in honor of Dr. Clyde E. Minges, American Dental Association President.

For the first time since World War II, chartered trains and planes will transport state delegations to the meeting. Illinois has such a train and the Chicago Dental Society is planning a special non-stop flight via United Air Lines from Chicago to San Francisco for Sunday, October 16.

**IMPROVEMENTS IN RETENTION
FOR CROWN AND BRIDGE PROSTHESIS**

(Continued from page 8)

CONCLUSION

The pin-retained attachment has these advantages: (1) Increased retention; (2) Conservation of tooth surface; (3) Control of marginal extension; (4) Ideal esthetic value; (5) Increased versatility of application; (6) Less patient discomfort during preparation; (7) Lessened gold volume resulting in less thermal shocking to pulp.

The disadvantages are: (1) The technique depends upon precision throughout for success; (2) It cannot be used when pulp size is larger than normal.

MEDICAL CARE

(Continued from page 16)

country approved for the training of occupational therapists.

CONTINUING PROGRESS

In the past, the share of total consumer expenditures devoted to medical care has averaged about 4 per cent. However, BLS data for 1948 show that the price of medical care increased only 40 per cent from the prewar average while all consumer prices rose over 70 per cent. Physicians are getting a progressively smaller share of the medical dollar, down from 31¢ in 1935-1939 to 26¢ in 1947. Again, prices are important; those paid for physicians' services rose only 35 per cent, but hospital room rates, bearing the brunt of inflation, rose 110 per cent, and were the major factor in the increased cost of keeping well.

Americans are not only paying relatively less for medical care than they are for most other goods and services, but they are getting dividends in the form of an extended life span. At the height of the Roman Empire, life expectancy was probably only 25 years, and it had increased only eight years by 1700. Mod-

ern medical science took only 18 years to make the same improvement; between 1929 and 1947, life expectancy at birth rose from 59 to 67 years.

During the past fifty years, improvements in medical care have been as great, if not greater, than the much publicized advances in modern technology. In 1900 the average age at death, which lags behind expectancy, was only 33.7 years, and no single causes of death stood far above the others. In less than half a century, the average age at death has been extended to 57.4 years, and all diseases whose average victim is under 35 have been eliminated as leading causes of death in the United States.

Today the leading causes of death are heart disease, cancer, cerebrovascular lesions, and nephritis, all of which typically attack a person during his sixties. It would appear that America is the victim of an epidemic of heart disease and cancer, when, actually, medical progress has simply enabled people to live long enough to die of diseases which strike in later life. Because the need for better medical care is unlimited, we may expect average age at death to continue to rise, maintaining the record of achievement of the medical profession.
